<b>1. CONFERENCE PROGRAMME</b>	

**Eye Care for All** - the 12<sup>th</sup> Annual Conference of VISION 2020: The Right to Sight – INDIA focussing on community ophthalmology was held on 4 & 5 June 2016. The two day national conference was kindly hosted by PBMA's HV Desai Eye Hospital, Pune, Maharashtra.

The conference aimed to serve as a unique platform and to bring together people from different sectors - non-governmental, government and private. Participants included Ophthalmologists, optometrists, practitioners, program managers, planners, and other service providers all with a common commitment to the goal of prevention of blindness; to offer an opportunity for sharing, learning and interacting with others towards this mission.

The conference was successful. It convened nearly 600 participants from across the country bringing together senior government officials from the Centre and State health ministry, policy makers, heads of eye hospitals, allied organisations, ophthalmologists, optometrists, hospital managers and other important cadre who are the backbone of an eye hospital.

The 22 sessions in 5 tracks of the conference were invigorating and stimulating. And the environment outside the session rooms was no less vibrant where session talks were further discussed, ideas exchanged, meetings with INGO representatives promising into a possibility of a new partnership or just churning out of new ideas. At the conference venue, the atmosphere was palpable.

*“ I applaud VISION 2020 for organising this conference promoting eye care for all involving all stakeholders especially the government”*

*Ms Dharitri Panda  
Joint Secretary,  
NPCB*

## Some highlights of the conference:

- A free- wheeling interaction with the Joint Secretary, NPCB, Ms Dharitri Panda, where she outlined areas in which the national programme was focussing and also responded to several questions by members.
- The unveiling of a special Sightsavers logo on their 50years in India at the inauguration
- Talk by CEO of Health Sector Skill Council and this takes importance in today's emerging scenario of building skills and collaborating of all allied sectors for an improved health care in the country
- Fruitful association of Poona and Maharashtra ophthalmic Societies
- Very encouraging participation of government representatives

*Great show by  
Col Deshpande  
indeed. Glad I  
could make it”*

*Atul Kumar  
Chief, Dr R P  
Centre, AIIMS*

## The Common Session featured:

- Dr Promilla Gupta, DDG (O), NPCB, Govt. of India talking on "Partnership – the key factor to make NPCB mission achievable"
- Dr D Ramamurthy on a SWOT analysis of Indian ophthalmology and
- Mr RD Thulasiraj taking us through his very rich experience of outreach Programme.

It is always interesting and refreshing to get inputs and insights from outside the eye care fraternity. This year, conference saw participation from: IBM, Cognizant Technology Solutions talking on Human Resource. We were fortunate to have a very senior official from Alcon, India to share his views on their Phaco development programme.

Poona Ophthalmological Society and Maharashtra Ophthalmological Society associated for the conference and had a strong presence and participation and shared their rich experience and perspective. We are thankful to the President and Secretary of the Societies to grace the conference.

The conference also saw strong participation by the District Programme Officers of the State Blindness Programme, Maharashtra and also ophthalmic officers from the State.

*"Great to see this gathering where I had an opportunity to present on skill building & healthcare"*

Mr Ashish Jain,  
CEO,  
Healthcare  
Sector Skill  
Council

# INTRODUCTION

The annual conference is the flagship event of VISION 2020 – INDIA. It was established as a platform for sharing experiences and networking and continues to grow in that direction.

The broad aim of the conference is:

- increasing the capacity of eye care fraternity towards meeting the goal of reducing visual impairment
- creating networking opportunities and overall atmosphere of grading knowledge and technology use
- share experiences and good practices in the area of eye health for better planning and implementation of eye care services

## The tracks for this year were:

**Leadership and Service Excellence**

**Eye Care Delivery to the Unreached**

**Improving the Patient Outcomes in Cataract Surgery**

**Skill Enhancement for Optometrist/ Ophthalmic Assistants**

*"This conference was the right gathering for achieving the task of equitable, accessible way of eliminating Blindness"*

Dr Promilla Gupta  
DDG ( O )  
NPCB, GoI

## INTRODUCTION

Page 6

We had an overwhelming response to free paper presentation. It was decided to introduce a separate track for these free papers to discuss them under **Sharing knowledge repository: towards organisation's sustainability & growth (ORAL PRESENTATIONS)**.

VISION 2020 – INDIA has constituted two awards to recognise the exemplary work by organisations: Shri Dharamsey Nansey Oman Award for Outstanding High Quality High Volume Comprehensive Eye Care Service Delivery instituted in 2012 and Shri SN Shah Award for Equitable Eye Care initiated in 2013. The selected organisations are presented the awards at the conference.

In 2014, Dr G N Rao gave a grant for initiating a Travel Fellowship to sponsor students to attend the conference. Thanks to this grant we were able to sponsor 10 students for the conference.

We are also thankful to Seva Foundation for giving us a generous grant to sponsor participation of member organisations based in remote rural areas. The grant enabled us to sponsor 5 organisations for the conference.

## CONFERENCE INAUGURATION

The official inauguration of the conference was held on the evening of 4<sup>th</sup> June at the HV Desai Eye Hospital's auditorium. The inauguration had a galaxy of eminent personalities. The chief guest for the occasion was Dr. S. B. Mujumdar, Founder and President, Symbiosis International University and guests of honour were: Mr Nitin Desai, Chairman, PBMA & Desai Brothers; Mr Rajiv Bajaj, Managing Director, Bajaj Auto; Dr Promilla Gupta, DDG (O), NPCB; Mr N P Pandya, President, PBMA. We were glad to have the presence of Dr Sadhana Tayade, SPO, Maharashtra; Dr Salil Gadkari, President, Maharashtra Ophthalmic Society, Dr Sanjay Shah, President, Poona Ophthalmic Society, Dr Sara Varughese, President, VISION 2020 – INDIA and Mr Phanindra Babu Nukella, CEO, VISION 2020—INDIA.

The inaugural programme was an occasion to honour and celebrate the contribution of individuals and organisations towards the mission of reducing visual impairment. In order of things to honour "a guru", a mentor, Mr D Nagarajan from Seva Foundation was felicitated with a Memento and shawl. " We must respect our peers and express our gratitude towards them", said Col Deshpande, Chief Medical Director, H V Desai Eye Hospital.

This is a year when Sightsavers is celebrating its 50 years of service in India. The inauguration saw the unveiling of the logo to mark the occasion and felicitation to Sightsavers, India represented by Mr RN Mohanty.

The Free Paper track featured 25 presentations.

For optometry presentation Ms Anitha Aravind from Ratan Jyoti Netralaya got the best papers memento

For outreach presentations 5 mementoes were given

Mr Sanil Joseph, LAICO

Dr Suneeta Dubey,  
Dr Shroff's Charity Eye Hospital

Dr Rajesh Saini, Sewa Sadan Eye Hospital

Mr Harish Kumar, OEU

Dr Vasundhra Misra  
Dr R P Centre, AIIMS

Mr D Nagarajan being felicitated. Seen along with him is his spouse.

( left) Sightsaver's 50 years logo being unveiled and RN Mohanty , Sightsavers felicitated by Sara Varughese ( right)

S. B. Mujumdar, Founder and President, Symbiosis University

Inaugurating the conference, Chief Guest for the evening, Dr. S. B. Mujumdar, founder and president, Symbiosis International University spoke about the challenges faced by people who are blind and how they have overcome the challenge to make a mark in their lives. He said that in his university each year the MBA programme admits two blind students and "they perform better than most of the others." He exhorted all to take a page from the lives of such visually challenged people in the society as an inspiration.

Mr Nitin Desai, Chairman, PBMA welcomed the guests to the conference and was hopeful that with everyone's support it will be possible to reach the aim of eliminating avoidable blindness. Mr Desai wished the conference the best.

Rajiv Bajaj, MD, Bajaj Auto

In an engaging presentation, Mr Rajiv Bajaj, Managing Director, Bajaj Auto drew parallel between homeopathy, yoga and leadership and health. He drew inspiration from his personal experience in both the fields to engage the audience in a out - of—the box presentation. .

Speaking at the conference, Dr Sara Varughese, President, VISION 2020 – INDIA drew everyone's attention to the theme of the conference, Eye Care for All and the aim behind it being to reach out to the remotest areas of the country – be it J & K, north east region; male or female; young or old. She further said that VISION 2020 was working towards its mission to take eye care to those who cannot afford it and also make it accessible to all. She applauded the effort of the host HV Desai Eye Hospital – for a successful conference.

Promilla Gupta, DDG (O), NPCB

Dr Promilla Gupta, DDG (O), NPCB in her speech said that the conference was the right gathering for achieving the task of equitable, accessible way of eliminating blindness and encouraged the eye care fraternity present at the inauguration to reach out to the farthest corner of the country with their service.

Appreciating the work VISION 2020 – INDIA was doing providing an enabling environment with innovative ideas, she assured the support of the government in the endeavour.

Col (retd.) Dr M Deshpande, Chief Medical Director, H V Desai Eye Hospital proposed a vote of thanks.

(Left) Dharamsey Nansey Award was presented to Pushpagiri Vitero Retina Institute, Hyderabad | (Right) SN Shah Award to Udaygiri Lions Eye Hospital, Latur

## AWARD PRESENTATION

Two awards instituted by VISION 2020 – INDIA were presented at the inaugural. This year's Dharamsey Nansey Award was presented to Pushpagiri Vitero Retina Institute, Hyderabad and the SN Shah Award to Udaygiri Lions Eye Hospital, Latur.

The awards were selected by three member jury: Mr NP Pandya, Mr R D Thulasiraj and Dr GVS Murthy. The Dharamsey Nansey award carries a cash award of rupees one lakh and SN Shah award carries a cash award of rupees ten thousand.

## SCIENTIFIC PROGRAMME

Led by a stellar roster of renowned speakers, the two-day program of the 12th annual conference offered four tracks and two common sessions. One common session was a joint one for the leadership and outreach track. Titled **Eye Care in India – An Update** the session's focus was on government's new Health Policy, which brings a new focus to health care delivery in general and eye care in particular. This session aimed to provide current status with respect to blindness scenario, opportunities and challenges in eye care delivery and current priorities. The conference's Common Session deliberated on a national agenda for eye care.

All the sessions were designed by an expert scientific committee to be highly practical and focus on drawing learning and best practices from eye care institutions and other related organisations that implemented community ophthalmology programmes successfully across the country.

An extra track **Sharing knowledge repository: towards organisation's sustainability & growth (ORAL PRESENTATIONS)** was added to the four scientific sessions to provide an opportunity to present the free papers. These papers were spread over two days to include papers on Optometry on day 1 and on the 2<sup>nd</sup> day focussing on outreach.

A two member judge panel marked the papers on certain parameters and judged one best paper for optometry and five for outreach. The two member panel for optometry papers was: Dr Santosh Moses, India Country Director, OEU and Ms Dhivya Ramasami, Senior Faculty, LAICO. For the outreach section, the judge panel comprised of Dr Santosh Moses, India Country Director, OEU and Dr KV Krishanji, Former Chairman, R.R. Lions Eye Hospital.

Rajiv Bajaj, MD, Bajaj Auto felicitated by Nitin Desai, Chairman, PBMA

N P Pandya, President, PBMA felicitated by Sara Varughese

Rahul Deshpande and Kuldeep Dole

### Special Interactive Session with Joint Secretary-NPCB, Govt. of India

A special one hour interactive session with the Joint Secretary (JS), NPCB, Ministry of Health and Family Welfare, Government of India, Ms Dharitri Panda was held at the 12th annual conference. It was an open session where the member organisations present could interact with her.

The Joint Secretary, in a first ever such a session, spoke about what the ministry was doing to strengthen eye care in the country.

In a free – wheeling discussion which lasted for nearly 60 minutes, the Joint Secretary spoke about a number of issues including the pending DBSC dues, the need to narrow the gap in demand and supply of cornea in the country and further strengthening the partnership between the government and NGOs working in eye care.

Regarding the DBSC issues, Ms Panda said that the department had recently issued another DO letter to the health secretaries and she was keen to clear all the pending dues.

Mr Mohan Hindpur: Payment procedure is tedious and sometimes it takes too long while the money is at the district office.

JS: acknowledged that it was a valid point and said that it was a generic problem and the number of procedures to be reviewed. She said that the department was working on the MIS and suggested that VISION 2020 – INDIA can provide suggestions on MIS to NPCB.

Responding on Meenkashi Cundwata's suggestion on making the manuals brought out by VISION 2020 – INDIA in regional languages, the JS requested VISION 2020 – India to take a look at the translation of manuals into regional languages. Dr Sara added that VISION 2020—INDIA was trying to collect a repository of manuals etc

Mr Atul Kapoor: raised a concern regarding the gap in demand and supply of cornea in the country.

Dr Ashi Khurana: pointed to the time gap for assessing the eye bank facility.

JS: spoke on her concern about cornea about the gap that was too wide and requested the national NGOs to help the government to fulfil this gap.

JS added that the ministry was looking at building stronger RIOs and was working towards one RIO in each state.

She spoke about the PPP model and that "we have not explored the full potential of CSR. She said that we should have a nexus with the corporate and the eye sector."

The Joint Secretary spoke about:

Narrowing the gap between demand and supply of cornea in the country

Working towards clearing the DBSC dues

building stronger RIOs and was working towards one RIO in each state.

Exploring the full potential of CSR

*The 'women—power' in eye care in India: from right Dr Promilla Gupta, DDG, NPCB, GoI | Ms Dharitri Panda, Joint Secretary, NPCB, MoHFW, GoI | Dr Sara Varughese, President, VISION 2020—INDIA | Dr Sadhana Tayade, SPO, Maharashtra.*

This year, the ministry plans to have a meeting with corporate to harness the potential of CSR.

Sashi: spoke about the need for a dedicated eye OT in government hospitals.

JS said although she agrees that Ophthalmology should be given separate rooms but she did not have any ready answers for this and the topic needs to be debated.

Archana Bhambal spoke about training ASHA workers: that the training manual does not have much content on eye care and if the ministry can facilitate the process.

JS: NPCB is writing to the NHSRC to develop manual on eye care. She further said that the ministry is developing the curriculum on optometry and optometrist will be playing a major part in that.

On the question of lack of transport in the northeast, JS said that there are a number of vehicles and they can be used.

She further said that in district eye hospitals where there are no ophthalmologist, but if a NGO is willing to operate in that government hospital where there is no ophthalmology, the government will view it positively.

The Four Tracks of the Conference were:

## Leadership and Service Excellence

The focus of the leadership track this year was the imminent topic of Human Resource, how to develop empowered workforce, how to fostering a culture of delivering high quality of care and also about informed decision making for better results.

The track also dealt with two current issues through panel discussion. One on Managing Technology – how eye care industry is witnessing a rapid technological change and are they managing it and the second was challenges in delivering eye care in rural regions. Several organisations providing eye care services in the rural and remote regions face huge challenges and how they overcome it.

## Eye Care delivery to the Unreached

The outreach session this year too was the most attended one. It focussed on the various components of outreach services: planning for outreach services - human resources, infrastructure, various models and practices. To understand the various principles and systems of monitoring, its assessment and strengthening to improve eye care services through outreach services. Comprehensive approach in outreach with a focus on various eye diseases and reaching to the vulnerable communities and innovative approaches in outreach.

## Improving the Patient Outcomes in Cataract Surgery

This track dealt with all aspects towards improving the patient outcome in cataract surgery. Be it improving outcomes in SICS surgery, reducing errors & infection Prevention, a debate on all aspects of infection prevention, the need to design effective training programmes for teaching surgical skills essential for producing good patient or how to generate demand for service and the role of technology in community based practice.

The last session of this track in 'Cataract and Beyond' dwelled on some issues on eye donation, quality control in the OT, SICS cataract surgery and practice management.

## Skill Enhancement for Optometrist/ Ophthalmic Assistants

The workshops were based on the hands on training and were focused on 'Quest for Unaided 2020 Biometry Techniques', 'Tips & Traps- Pearls in Paediatric Refractions', 'Beautiful Eyes'-Contact Lens Fitting', 'Double Vision, Double Trouble'-Orthoptics' and 'Small Intervention, BIG impact'-Low Vision Aids'. The common session's focus was on broadening the scope of paramedics practice. Around 120 Optometrists attended the sessions. Optometry students appreciated the workshops where they could get hands on training.

The objective of the conference common session was to bring in focus certain national overarching issues that concern all. Dr Promilla Gupta, DDG, NPCB, Ministry of Health and Family Welfare, Government of India; Dr D Ramamurthy, President, AIOS; and Mr R D Thulasiraj, Executive Director, LAICO were the eminent speakers for the session.

Dr Gupta in her presentation 'Partnership- key factor to make NPCB mission achievable' emphasised that NGOs play an important role in eradication of avoidable blindness in strategic partnership with NPCB (MOHFW). She outlined the partnership of NPCB and NGO and how this can be improved to attain the mission of NPCB.

'SWOT Analysis of Indian Ophthalmology' was Dr Ramamurthy's topic of presentation. In his very engaging talk, Dr Ramamurthy brought forth a number of challenges that were faced by the ophthalmology fraternity in delivering effective eye care in the country: be it the custom duty on equipments; or the use of steroids sold over the counter and used without medical advice by consumers and called out to the government to take steps to take care of these issues.

He also voiced his concern about the uniform four year mandatory course in optometry in offering and the need to retain the two year course to serve the rural areas where more qualified optometrist were reluctant to serve.

Mr R D Thulsairaj took the audience through a journey in his presentation on 'Quality in Outreach - my experience'. How it all started with Dr V and since those days how the community outreach has evolved through incorporating the learning.

*Promilla Gupta, DDG, NPCB,*

*D Ramamurthy, President, AIOS*

## Eye Care in India – an update

Eye Care in India—an update was a common session for the tracks: **Leadership and Service Excellence & Eye Care delivery to the Unreached**. The session's focus was on government's new Health Policy, which brings a new focus to health care delivery in general and eye care in particular. This session aimed to provide current status with respect to blindness scenario, opportunities and challenges in eye care delivery and current priorities.

All the topics focused on the current scenario with regard to blindness in the country:

Dr Sara Varughese spoke on the '**VISION 2020—INDIA goals and the way forward**', while Dr Praveen Vashist elaborated on the '**Blindness Scenario in different regions in India: existing data and future survey plans**'.

Dr R D Ravindran sharing his experience from Aravind Eye Care Systems shared the '**Challenges and learnings from high volume cataract surgical services at ACES**'.

*R D Thulasiraj, Ex Director , LAICO*

Dr Sandeep Buttan brought a focus on primary care in his presentation '**Achieving universal eye health: need to focus on primary eye care**'. While Dr Pormilla Gupta, gave an insight on '**Initiatives under NPCB towards elimination of trachoma in India**'. Dr Imtiaz Ahmed presented on a very relevant topic on '**Economic impact of cataract surgical intervention in southern India**'.

*The speakers of this session responding to queries by the audience. (from left) R D Ravindran, Sandeep Buttan and Imtiaz Ahmad.*

*Sara Varughese giving her talk*

*Praveen vashist making his presentation*

## THANKS

*The conference would not have been possible without the able support of :*

*The scientific committee: to give their precious time for meetings and coordination and brain storming to design the programme.*

*HV Desai Eye Hospital: headed by Col Deshpande and the team led by Dr Kuldeep Dole. Salute to his dedicated team of volunteers who worked round the clock to ensure that all went without a hitch.*

*We thank Seva Foundation for encouraging rural eye care participation.*

*We thank AIOS, NPCB, Speakers, POS, MOS speakers and not to forget the Chairs, Co Chairs and Moderators and all other participants who made the conference vibrant place for learning and sharing of ideas.*

*We would also like to thank the Jury for the awards.*

*Thank you all.*

**ANNEXURE**

*We reach out and care*

Session Objective	Government of India is formulating a new Health Policy. This brings a new focus to health care delivery in general and eye care in particular. This session aims to provide current status with respect to blindness scenario, opportunities and challenges in eye care delivery and current priorities.	
Chair	Promila Gupta, NPCB, Ministry of Health and Family Welfare, Government of India	
Co-Chair	Sara Varughese, President, VISION 2020 – INDIA	
Moderator	Praveen Vashist, Dr RP Centre, AIIMS	
<b>Time</b>	<b>Topic</b>	<b>Speaker</b>
9:00 – 9:15	VISION 2020- INDIA Goals: Current status and way forward	Sara Varughese, VISION 2020 – INDIA
9:15 – 9:30	Blindness scenario in different regions of India: existing data and future survey plans	Praveen Vashist, Dr RP Centre, AIIMS
9:30 – 9:45	Advocacy for community eye health	Col M Deshpande, HV Desai Eye Hospital
9:45 – 10:00	Challenges and learnings from high volume cataract surgical services at Aravind Eye Care System	R D Ravindran, Aravind Eye Care System
10:00 – 10:15	Achieving universal eye health: need to focus on primary eye care	Sandeep Buttan, Sightsavers
10:15 – 10:30	Initiatives under NPCB towards elimination of trachoma in India	Promilla Gupta, NPCB, MoH&FW, Government of India
10:30 – 10:45	Economic impact of cataract surgical intervention in southern India	Imtiaz Ahmed Sankara Eye Foundation- India
10:45 – 10:50	Discussion	
10:50 – 11:00	Coffee/ Tea Break	

**Track: Leadership & Service Excellence**

**Date:** 4 June

**Venue:** Hall A, Mamashah Building, 1<sup>st</sup> Floor, H V Desai Eye Hospital

<b>Session 1</b>	<b>Developing Empowered Workforce: Employee Engagement   11:00 – 12:30 hrs</b>	
Session Objective	Organisations need to focus on building an enabling environment for its employees to deliver their best. However, most organisations struggle to sustain employees and their performances. Employee Engagement is an approach that strives to encourage the right conditions employees in an organisation to give their best, each day- committed to their organisation's goals and values, motivated to contribute to organisation's success, with an enhanced sense of their own well-being. Key Objectives: <ul style="list-style-type: none"> <li>• Explore drivers of employee engagement</li> <li>• Provide tools for assessing levels of employee engagement</li> <li>• Explore best practices in building an engaged team</li> </ul>	
Chair	B K Jain, Sadguru Netra Chikitsalya	
Co-Chair	S Natarajan, Aditya Jyot	
Moderator	Asim Sil, Vivekananda Mission Ashram – Netra Nirmaya Niketan	

Time	Topic	Speaker
11:00 – 11:05	Introduction and setting the context	Asim Sil Vivekananda Mission Ashram – Netra Nirmaya Niketan
11:05 – 11:20	Drivers of employee engagement	Ashwin Bhandarkar, Cognizant Technology Solutions
11:20 – 11:50	Best practices in employee engagement: Sharing Industry experiences 1. Case Study – Outside eye care 2. Case Study – From eye care	1. Pankaj Pipariya, IBM 2. A Ramam, LVPEI
11:50 – 12:05	Practical guidelines for employee engagement	Asim Sil Vivekananda Mission Ashram – Netra Nirmaya Niketan
12:05 – 12:30	Discussion	
<b>Session 2</b>	<b>GOVERNMENT INITIATIVES - 1   12:30 – 13:00 hrs</b>	
12:30 – 13:00	Healthcare Sector Skill Council: Avenue for collaborating for improving the healthcare skill building efforts in the country	Ashish Jain, CEO, Healthcare Sector Skill Council
13:00 – 14:00	Lunch	
<b>Session 3</b>	<b>Developing Empowered Workforce: Structured Approach to Developing Human Resources   14:00 – 15:45 hrs</b>	
Session Objective	<p>Human resource management is one of the key challenges for eye hospitals across India. Several factors such as unavailability of trained manpower for all cadres of staff adds to the challenge. To meet their requirement hospitals often recruit untrained personnel with an intention to build their competencies through simple exposures. However, such unstructured exposures do not yield desired level of competency- affecting both quality of care and employee satisfaction.</p> <p>It is therefore imperative that hospitals focus on building competencies by adopting strong orientation and training practices focused on equipping the employee with the necessary knowledge and skills and the right attitude.</p> <p>Key objectives:</p> <ul style="list-style-type: none"> <li>• Establish the relevance and importance of competency-based training</li> <li>• Explore best practices in employee orientation and training</li> <li>• Guidelines for effective training</li> <li>• Sharing tools and methods for assessment of learning</li> <li>• Understanding Training Evaluation</li> <li>• Sharing resources for training</li> </ul>	
Chair	Sara Varughese, VISION2020- INDIA	
Co-Chair	Satanshu Mathur, Disha Foundation	
Moderator	Sandeep Buttan, Sightsavers

1<sup>st</sup> Floor, H V Desai Eye Hospital

<b>Session 4</b>		
<b>Fostering a culture of delivering high quality of care   8:30 – 10:20 hrs</b>		
Session Objective	Providing high quality eye care has an impact both on- outcome and patient satisfaction as well as staff behaviour or attitude to the overall care giving process. This requires a system- wide process in place that empowers staff with adequate skills, knowledge and an ecosystem. This session will discuss in detail key approaches for delivering high quality care.  Key objectives: elicit key dimensions of quality, preferred practices that enables promoting a culture of delivering high quality of eye care services. This includes implementation of right systems, staff training, ability to manage crisis and involvement of senior leadership team.	
Chair	Col M Deshpande, H V Desai Eye Hospital	
Co-Chair	D Nagarajan, Seva Foundation	
Moderator	Dr RD Ravindran, Aravind Eye Care System	
Time	Topic	Speaker
8:30 – 8:37	Introduction and setting the context to the session:	D Ramamurthy, AIOS
8:37 – 8:52	Clinical protocol: first step towards quality of care	Kuldeep Dole H V Desai Eye Hospital
8:52 – 9:07	Checklists to ensure patient safety, a key driver for high quality care delivery –	V C Bhatnagar Global Hospital Institute of Ophthalmology
9:07 – 9:22	Managing crisis- simple complication to dreadful cluster infection	Col M Deshpande H V Desai Eye Hospital
9:22 – 9:37	Metrics and benchmarks- understanding the outcomes for continuous improvement	R D Ravindran Aravind Eye Care System
9:37 – 10:00	Continuous training of the staff, key to delivering high quality care delivery	A K Arora Dr Shroff's Charity Eye Hospital
10:00 – 10:20	Discussion	
10:20 – 10:30	Coffee/ Tea Break	

## Conference Common Session

**Venue:** Hall A, Mamashah Building, 1<sup>st</sup> Floor, H V Desai Eye Hospital

Time	Topic	Speaker
10:30 – 10:45	Quality Maintenance in Cataract Outreach-my experience	TP Lahane, Dean, J. J. Hospital, Mumbai
10:45 – 11:00	Partnership- Key factor to make NPCB mission achievable	Promila Gupta, Deputy Director General, National Programme for Control of Blindness, Government of India
11:00 – 11:15	SWOT Analysis of Indian ophthalmology	D Ramamurthy, President, AIOS
11:15 – 11:30	Discussion	

**Track Continues in Hall A**

<b>Session 5</b>		
<b>Informed decision making for better results   11:45 – 13:00 hrs</b>		
Session Objective	Informed decision-making impacts an organisation in multiple ways. On one hand, analysing right data at right time intervals enables an organisation to consider appropriate course correction and necessary improvements at operational level as well as take appropriate strategic decisions. On the other hand, fostering a culture of evidence-based approach helps to build transparency and trust among staff, which may directly affect patient care. This session aims to highlight the importance of imbibing informed decision-making approach at an organisational level and outline of how to do it.	

Chair	Promila Gupta, DDG, NPCB	
Co-Chair	D Nagarajan, Seva Foundation	
Moderator	R D Thulasiraj, LAICO- AECS	
<b>Time</b>	<b>Topic</b>	<b>Speaker</b>
11:45 – 11:50	Setting the context to the session	R D Thulasiraj, LAICO-AECS
11:50 – 12:05	Why should we worry about evidence? – Story telling through a real case	Sashi, LAICO-AECS
12:05 – 12:20	Choosing right metrics for achieving performance excellence	Ganesh Babu, LAICO-AECS
12:20 – 12:35	Ensuring accuracy and timeliness of data management	R R Sudhir, Sankara Nethralaya
12:35 – 12:50	Building a culture of evidence based decision making approach	Mukesh Tiwary Akhand Jyoti Eye Hospital
12:50 – 13:00	Discussion	

	<b>Interactive Session</b>	<b>Venue:</b> Hall A
13:00 – 13:30	Interactive Session with the head of National Programme for Control of Blindness ( NPCB), Government of India	<b>Panel:</b> 1. Dharitri Panda, Joint Secretary, NPCB, Ministry of Health and Family Welfare, Government of India 2. Sara Varughese, President, VISION 2020 – INDIA 3. Promilla Gupta, DDG, NPCB, Gol 4. Sadhana Tayade, SPO, Maharashtra
13:30 – 14:00	<b>Lunch</b>	

<b>Session 6</b>	<b>Managing Current Issues   14:00 – 15:30 hrs</b>	
Session Objective	<p>This session deals with two current issues through panel discussion- (1) Managing Technology – Eye care industry is witnessing a rapid technological change which in some instances is redefining approach to eye care delivery and in some, creating new avenues. Fuelled by technological innovations in ophthalmology as well as IT applications, it impacts care delivery process significantly. In such dynamic environment, challenges to the providers include prioritisation of investment, ability to balance and remain relevant, and look out to the potential possibilities by learning from other industries, etc.</p> <p>(2) Challenges in delivering eye care in rural regions: There are several providers who have been attempting to provide eye care services in the rural and remote regions where there is a huge eye care need due to limited access to eye care service delivery. They are faced by an enormous challenge including availability and retention of trained clinical staff, patient footfalls which hardly reflects community’s real eye care need, availability of leadership, etc. The panel discussion will discuss the above factors and elicit approaches that is key to overcoming some of these challenges</p>	
Chair	Deepshikha Agarwal, MGM Eye Hospital	
<b>Time</b>	<b>Topic</b>	<b>Speaker</b>
14:00 – 14:30	Managing technology: Considerations and challenges?	Moderator: Madhu Bhadauria, Sitapur Eye Hospital Panelist 1: Krishna R Murthy, Vittala International Institute of Ophthalmology Panelist 2: Rohan Chariwala, Divyajyoti Trust Panelist 3: Pellucid Pvt. Ltd.
14:30 – 15:00	Challenges in delivering eye care in rural regions	Moderator: Dr BK Jain, Sadguru Netra Chikitsalya Panelist 1: Mukesh Tiwary, Akhand Jyoti Eye Hospital Panelist 2: Madhu Bhadhuria, Sitapur Eye Hospital Panelist 3: Gopal Chandra Pramanik, Sunderbans Social Development
15:00 – 15:30	District planning tool: Recent initiative by Sightsavers	Archana Bhambal, Sightsavers

**VISION2020: The Right to Sight – INDIA**
